

HASA ALGI-CONTROL

SWIMMING POOL ALGAEICIDE – OUTSTANDING ALGAE GROWTH DEPRESSANT

HASA ALGI-CONTROL is efficient, economical and stable when used in proper dilution. **HASA ALGI-CONTROL** is compatible with most chemicals used in pool water and will not damage tile, concrete, metal, or plastics. **HASA ALGI-CONTROL** keeps pool water sparkling, clear, and free of visible green and blue-green algae, slime and green brown colors. **HASA ALGI-CONTROL** improves filter operation and cuts down the need for other chemicals. **HASA ALGI-CONTROL** gives tone and a pleasant ‘feel’ to swimming pool water.

DIRECTIONS FOR USE:

HASA ALGI-CONTROL should be added along pool edges while filter and pump are in operation. To allow time for even distribution in pool water, bather should allow 10 minutes after treatment before entering pool.

INITIAL APPLICATION:

To a cleaned pool add one gallon to 50,000 gallons of water every 5 to 7 days. When weather is hot or the bather load is heavy, use this dosage every 5 days or as necessary.

BOOSTER DOSE:

Immediately after every rain add one quart per 50,000 gallons of pool water as above.

INGREDIENTS:

ACTIVE INGREDIENTS: ALKYL (C ₁₄ -60%, C ₁₂ -12%, C ₁₆ -15%,.....)	10.00%
INERT INGREDIENTS:.....	90.00%
TOTAL INGREDIENTS:.....	100.00%
