

HI-TEMP SPA BROMINATING TABLETS

SPA AND HOT TUB SANITIZER

HASA HI-TEMP SPA BROMINATING TABLETS are effective as a spa and hot tub sanitizer and disinfectant.

DIRECTIONS FOR USE:

Ensure all spa equipment is working properly. Backwash the filter system following manufacturer's directions. Adjust pH to between 7.2-7.6. When using other products always follow directions on those products. Fill spa bromine feeder with **HI-TEMP SPA BROMINATING TABLETS** and adjust feeder following manufacturer's directions to yield bromine residual between 2-4 ppm in residential spas and 4-6 ppm in commercial spas. Check feeder regularly and add additional **HI-TEMP SPA BROMINATING TABLETS** as needed to maintain the bromine residual. The pump and filter should be operated for at least three hours every day whether spa is used or not. Do not heat water above 102° F. Keep the spa free of leaves and other debris. To maintain clear, clean water and insure the performance of your spa chemicals, spa should be drained and refilled with fresh water every 60 days in residential spas or a minimum of every 7 days in commercial spas.

Proper spa maintenance includes changing spa water. For an estimate of proper water life follow the formula below:

Divide the gallons in your spa by 3 times the average number of bathers per day.

Example: 375 gallon spa – 1 person x 3 = 3
375/3=125 (change water every 125 days)

INGREDIENTS:

ACTIVE INGREDIENTS: 1-Bromo-3-chloro-5.5-dimethylhydantoin:	96.00%
INERT INGREDIENTS:.....	4.00%
TOTAL INGREDIENTS:.....	100.00%
